Campbell garage door Mit morris Mich Review 1 Votes 8	★★★★★ - 2 years ago Happy Beautiful garage door glad I purchased it. I will recommend the door to anyone What Color or Woodtone did you purchase? Black ☑ Yes , I recommend this product.  Helpful? Yes - 8 No - 0 Report	Quality Value
John Bird Review 1 Votes 18	★★★★★ - 3 years ago Great looking and very durable Overall we're very happy with the doors, they made a huge difference in the curb appeal. We got solid panels for the bottom section since there is a lot of rain splatter near the ground that would make windows continually muddy, and are happy with that decision. We wish there was a pet door option for one of the solid panels. After the first dealer we contacted started acting flaky, we contacted two others and found a huge price difference between dealers. The dealer farthest away installed the doors for about \$1000.00 less per door. Although the dealer/installer carefully adjusted the springs, I would like to get an electric opener for the door we use most often. I think that's a sign of growing older. We were very pleased with the professionalism of the dealer that we ended up buying from. When it's time we will contact him about getting C.H.I. garage doors for the outbuilding. What Color or Woodtone did you purchase? Bronze ☑ Yes , I recommend this product. Helpful? Yes - 18 No - 0 Report	Quality Value
Mary Indian Wells, CA Review 16 Votes 16	★★★★★ - 3 years ago FROSTED GLASS not as expected It's a nice garage door, but we chose the Frosted glass which, by the sample looked to be fairly opaque. However when installed, it was darker than average frosted glasses AND you could see a clear outline of our parked car inside. Too expensive to change out (if there even is a good C.H.I. option), so my husband and I spent a full day testing, buying, then adding a frosted window film to the all 16 panels on the inside to get desired effect. (Gla "Frosted" window film was best.) (Actual door was Anodized Aluminum, an option not given below, so I chose "Gray." What Color or Woodtone did you purchase? Gray ☑ No , I do not recommend this product. Helpful? Yes - 16 No - 17 Report	Quality Value
