NONSTOP SERVICE.

Complete access solutions for safe and efficient operations.

PRODUCT BROCHURE
COMMERCIAL AND INDUSTRIAL
TOTAL PERIMETER ACCESS SOLUTIONS

COMPREHENSIVE SOLUTIONS. RELIABLE PERFORMANCE.

LiftMaster® access solutions deliver industry-leading performance, safety and reliability. From commercial/industrial-grade operators to safety accessories and access management reports, our products offer best-in-class features that keep your facility operating smoothly.

CUSTOM SOLUTIONS
Our extensive line of operators and accessories can be configured for almost any application.

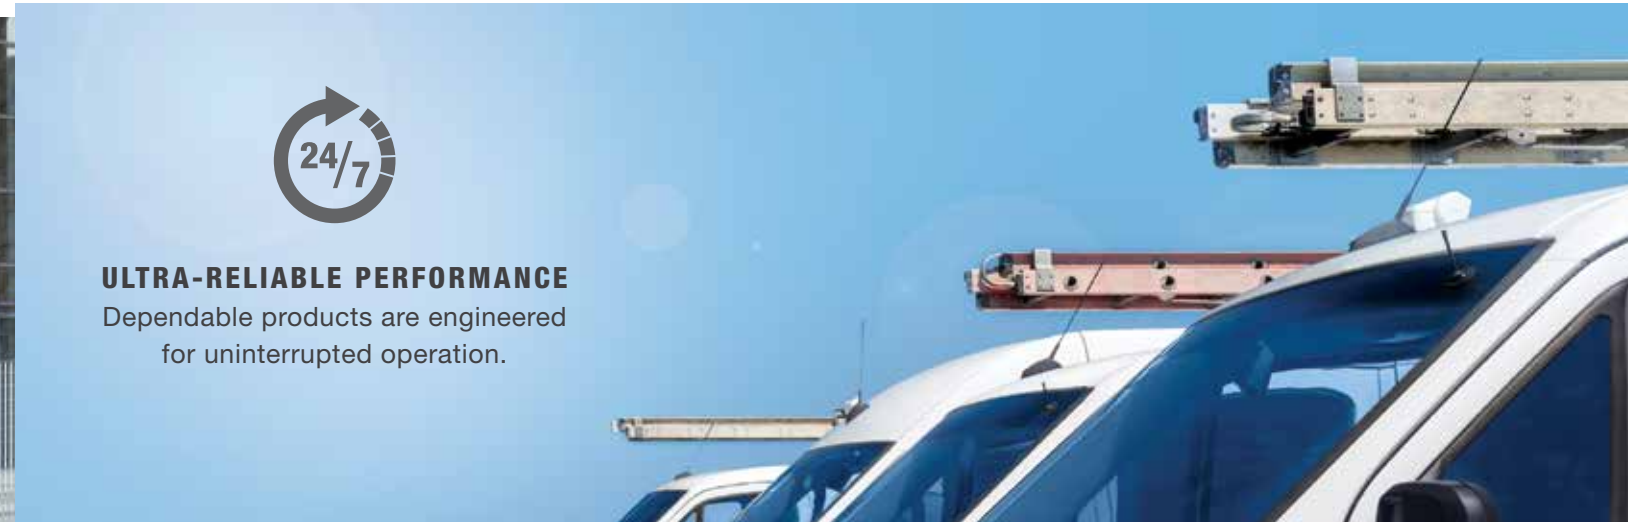

SYSTEMATIC SAFETY.

Beginning August 1, 2018, for a LiftMaster Slide Gate Operator to function and meet UL® 325 requirements, the operator will require a minimum of 2 independent monitored safety entrapment protection devices for each entrapment zone: 2 in the open direction and 2 in the close direction (inherent reversing system counts as 1 device).*

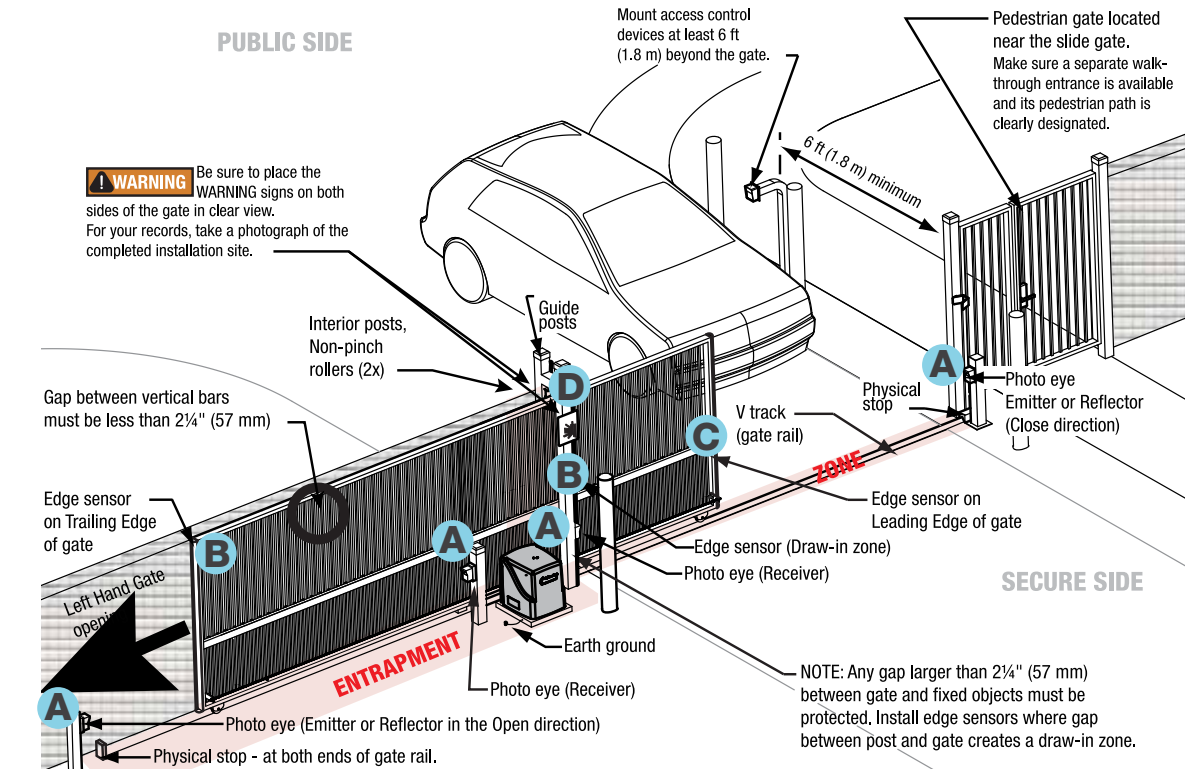

*Every installation is unique. It is the responsibility of the installer to ensure that all entrapment zones are protected with a minimum of 2 entrapment protection devices.

ULTRA-RELIABLE PERFORMANCE
Dependable products are engineered for uninterrupted operation.

SEAMLESS INTEGRATION
Products utilize advanced technology to work together as a comprehensive access system.

The above example is one of many installation possibilities and is for illustrative purposes only. For more information, visit DASMA.com.

A

Monitored Retro-Reflective Photo Eye (LMRRUL)

B

Monitored Wireless Edge Kit (LMWEKITU)

C

Wraparound Square Profile (WS5)

D

Monitored Small Profile Resistive Edge (S505AL)

THE BOTTOM LINE:

Fully integrated system: LiftMaster's full line of access solutions is tested to work together as a complete system.

Technologically advanced products: Utilize wireless technology available in our keypads, radios, remotes, dual-gate operators, loop detectors and safety edges.

Unrivaled product experience: Intuitive access management solutions and user-friendly products are simple and easy to use.

Ultra-reliable performance: Our operators offer best-in-class features designed to extend gate and hardware life.

VALUE
